

Name : Sidhant Karbotkar
Roll No : 1917

Introduction

Pixxel is a stock image website where you can get stock images for your website or graphic design or might be any project you working on. Stock images is existing photos -already created- made available download by paying the artist or free for personal use. Images can be stock photographs, graphic designs, vector art or illustrations. So basically In pixxel we can download stock images for free but the user has to acknowledge the creator's right over the image by giving credit to the creator. Also you can buy the image by giving a tip to the creator using our pixxel wallet.

Creator can create his own collections to showcase his art and create a brand for himself.

Requirements

Front End : html, css, bootstrap

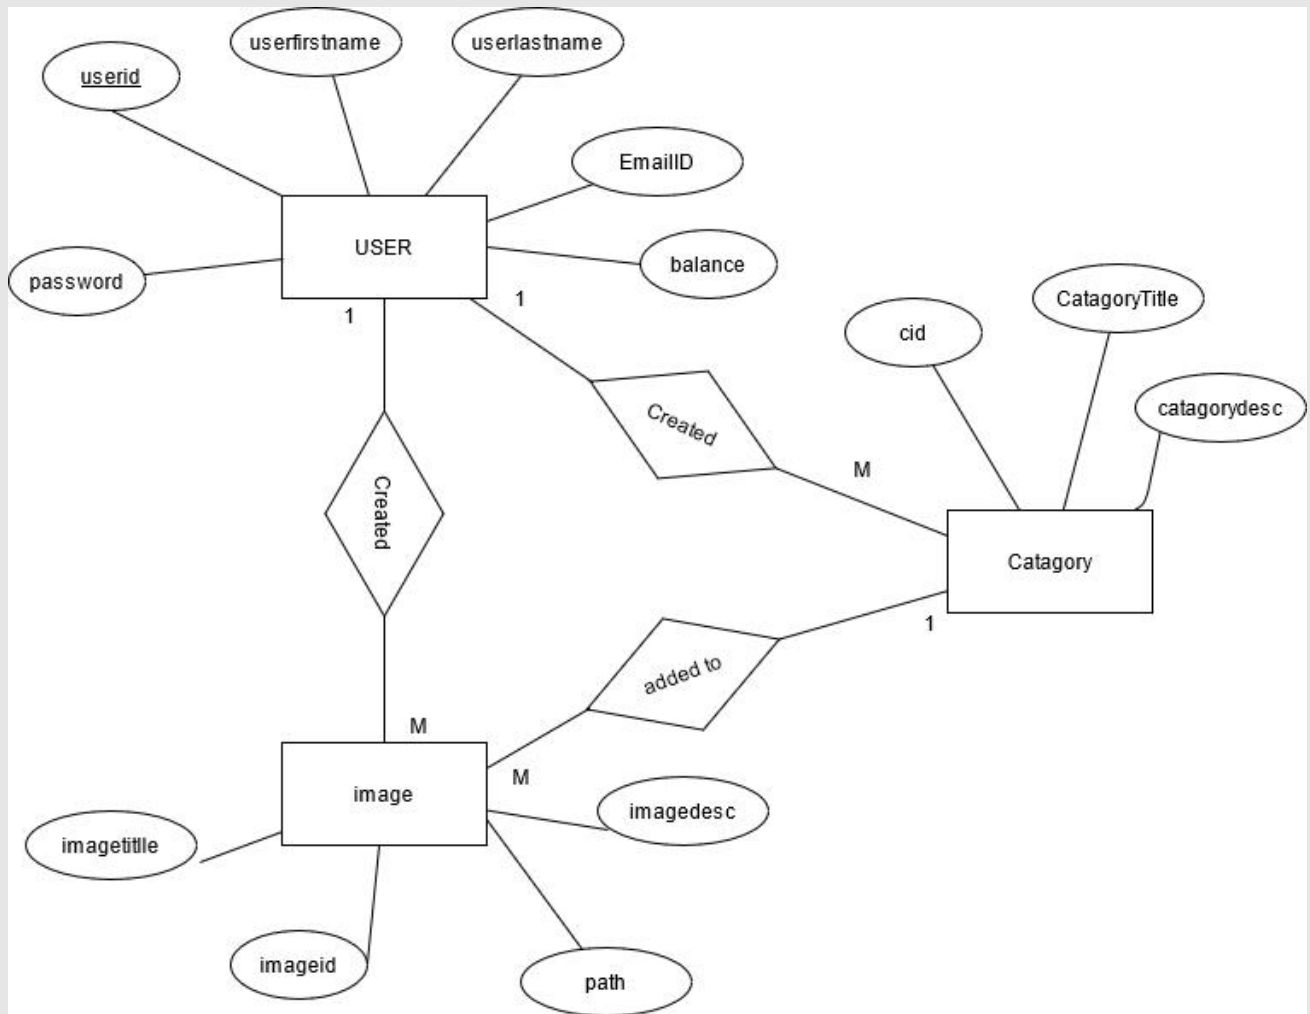

Back End : MySql Database

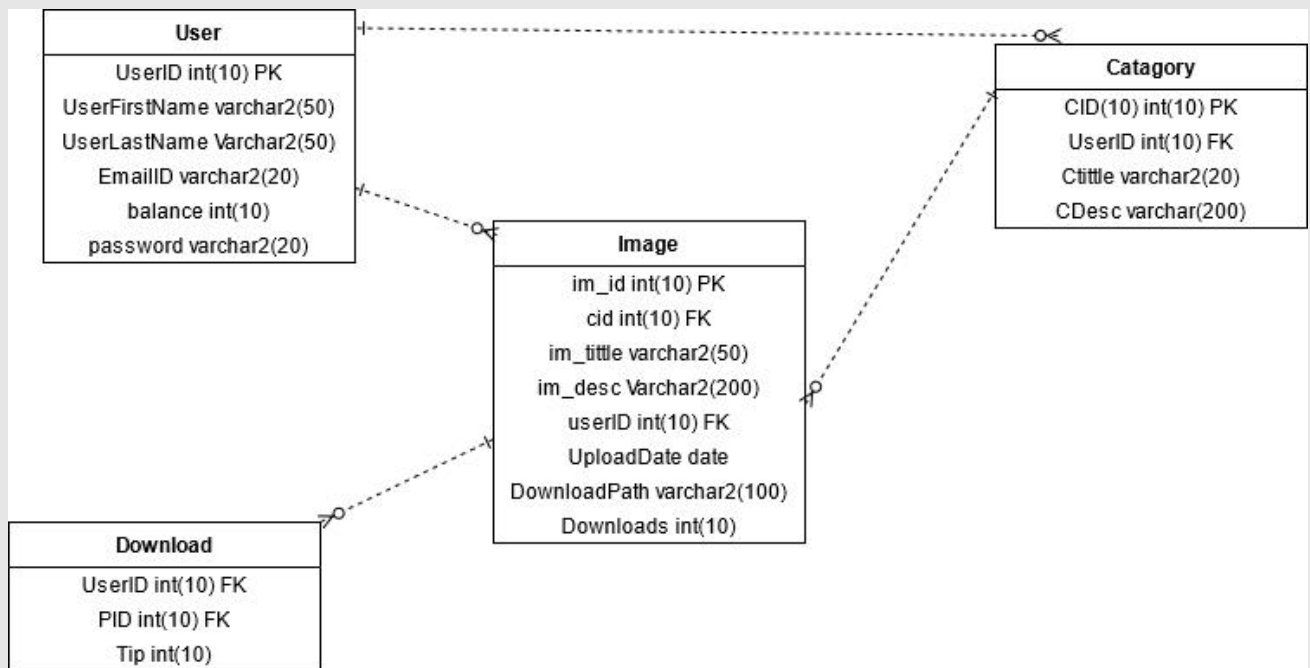

Objective

- To create a site where you can get Stock Images for free.
- The Images can be for commercial or personal user.
- Designers can get exposure by displaying their art.

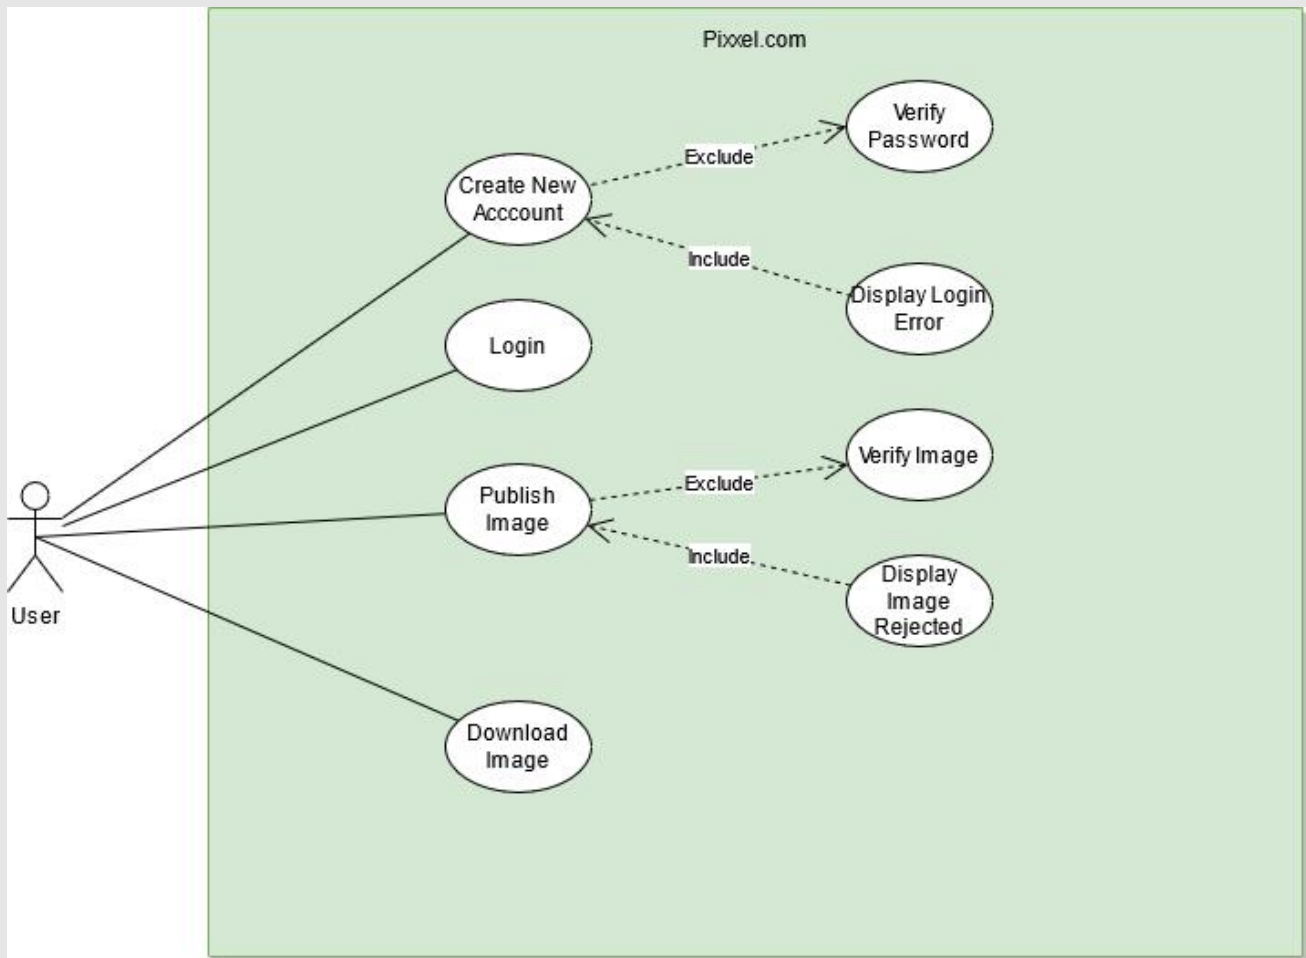

Design

1. ERD

2. Use Case Diagram

3. Database Tables

UPLOAD IMAGE PAGE

The screenshot shows a web browser window with the address bar displaying 'localhost/pl305/upload.php'. The browser's tab is labeled 'Pixel'. The page features a pink navigation bar with links: 'Home', 'Explore', 'Category', 'Users Data', and 'Welcome Sidhant'. The main content area has a light pink background with a white form titled 'Upload Image'. The form includes the instruction 'Enter the details for yor new post!' and three input fields: 'Image Tittle' (with placeholder text 'Enter Image Tittle'), 'Image Descriptio' (with placeholder text 'Enter Image Description'), and 'Select file' (with a 'Choose File' button and 'No file chosen' text). At the bottom of the form are two pink buttons: 'Submit' and 'Reset'. The Windows taskbar at the bottom shows various application icons and system information: 'U: 0.07 KB/s', 'D: 0.09 KB/s', '11:46 AM', and '12/21/2020'.
